

## **ODP Winter Weather Policy**

Given the physical geography across New York State, our weather patterns can differ from one city to another (i.e. it could be snowing in one region and not in another). Given this fact, NYSW will not cancel any training sessions. NYSW request that each parent use their own judgment in traveling to and from ODP events during questionable weather conditions. We encourage safety above all else and understand that inclement weather may occasionally prevent a player from attending a training session. If you opt out of a training session please notify your age group pool manager who will then inform the coaching staff.
